

These hikes to may be done individually or in combination. Parunuweap Pass can be done separately as a 5.7-mile through hike beginning at either TH. Logistically, however, it's most expedient to drop shuttle vehicle(s) at the eastern TH (**7**), then continue to the western TH (**10**) and begin the hike there. Cockeye Falls is a closed 4.3-mile loop beginning and ending at the same TH (**7**), which is also the eastern TH for Parunuweap Pass. To combine the two into a single 10-mile hike, drop shuttle vehicle(s) at the eastern TH (**7**) shared by both trails, then begin at the western TH and finish at the eastern TH. The Canyon Overlook TH (**10**) is one of the most popular in the Park. If you can't find parking there, try THs **9** or **8**.
